

2020-21 ANNUAL REVIEW

THEA BOWMAN LEADERSHIP ACADEMY

Evaluated By:

Lindsay Omlor, Director of Charter Schools
Emily Gaskill, Assistant Director of Accountability
Brenda Mescher, Assistant Director of Community Connections and Compliance

Education One, L.L.C.

TABLE OF CONTENTS

<u>Part I: Academic Performance</u>	3
<i>Is the school's educational program successful?</i>	
<u>Part II: Financial Performance</u>	18
<i>Is the school in sound fiscal health?</i>	
<u>Part III: Organizational Performance</u>	21
<i>Is the school effective and well run?</i>	
<u>Part IV: School Climate</u>	25
<i>Is the school providing appropriate conditions for student, family, and staff success?</i>	
<u>Part V: Next Steps</u>	27
<i>Does the school or organization require interventions moving forward?</i>	

OVERVIEW

In order to ensure its schools are operating at the highest level possible, Education One conducts an Annual Review for each school, specifically assessing the school's performance in each indicator found in their Accountability Plan Performance Framework. Indicators measure the school's Academic, Financial, and Organizational capabilities. Quantitative and qualitative data is gathered throughout the year from document review, routine site visits, and assessment and survey results.

Evidence of each indicator's ratings is reported to the school's Board of Directors during regularly scheduled board meetings. Through continuous monitoring, Education One is able to identify trends in data over time, address key areas of concern, and highlight successes on a more frequent basis. While the process involves a significant time commitment, Education One believes that this high level of accountability, coupled with strong collaboration, will allow its schools to best meet the needs of the student populations served.

Annual Review reports are presented to key stakeholders, including, but not limited to: School Board Chair, School Leader, and EMO/Superintendent (*if applicable*). A final copy of each school's Annual Review is posted on Education One's website, www.education1.org, for public viewing.

Part I: Academic Performance

The Academic Performance review gauges the academic success of the school in serving its target populations and closing equity gaps. Part I of the Annual Review consists of various indicators designed to measure success of local, state, and federal academic standards and goals. All indicators are noted in the school's Accountability Plan Performance Framework.

Overall Rating for Academic Performance	Year 1	Year 2	Year 3	
		2019-20	2020-21	2021-22
		Does Not Meet Standard	Not Applicable	

Is the school's educational program successful?	
Exceeds Standard	The school consistently and effectively complies with and presents no concerns in the indicators below.
Meets Standard	The school complies with and presents no concerns in the indicators below.
Approaching Standard	The school presents concerns in a minimal number of indicators and may or may not have a credible plan to address the issues.
Does Not Meet Standard	The school presents concerns in a majority of the indicators with no evidence of a credible plan to address the issues; or the school requires an Improvement Plan.

Accountability Plan Performance Framework Indicators		Year 1	Year 2	Year 3
Local	Instruction	AS	N/A	
	Attendance	AS	N/A	
	Post-Secondary Support	AS	AS	
	Legacy Student Achievement on Benchmark Assessment (Reading and Math)	N/A	N/A	
	Subgroup Student Achievement on Benchmark Assessment (Reading and Math)	N/A	N/A	
	Growth on Benchmark Assessment (Reading and Math)	N/A	N/A	
	Subgroup Growth on Benchmark Assessment (Reading and Math)	N/A	N/A	
State	State Accountability Grade	DNMS	N/A	
	State Assessment Participation Rate	MS	N/A	
	Legacy Student Achievement on Summative Assessment (Reading and Math)	DNMS	N/A	
	Subgroup Student Achievement on Summative Assessment (Reading and Math)	N/A	N/A	
	Student Growth on Summative Assessment (Reading and Math)	AS	N/A	
	Subgroup Student Growth on Summative Assessment (Reading and Math)	DNMS	N/A	
	Comparison to Local Schools	DNMS	N/A	
	Reading Proficiency- Grade 3	MS	N/A	
	Graduation Rate	MS	MS	
	College and Career Readiness	MS	DNMS	
Federal	Federal Accountability Rating	DNMS	N/A	
	Model Attendee	DNMS	MS	
	Closing Achievement Gaps	N/A	N/A	
	Language Proficiency for English Learners	N/A	N/A	

Local Academic Performance

Instruction: Education One measures and evaluates Instruction during regularly scheduled site visits. During these visits, classroom walkthroughs are conducted, assessing the following instructional best practices:

- Instructional delivery possesses the appropriate level of rigor and relevance;
- Instructional activities use differentiated strategies to meet the individual needs of most learners;
- Checks for understanding are appropriately implemented throughout the lesson;
- Students receive timely, growth oriented feedback from the teacher to improve their instructional practices;
- Classroom management supports content delivery;
- Techniques are implemented to increase active engagement of most learners;
- Instruction is based on core learning objects and grade level standards; and
- The curriculum is implemented according to its design.

Education One’s system for calculating instructional ratings takes the qualitative observations of the school as a whole and turns those observations into quantitative results in order to provide all stakeholders with a more accurate method of determining the effectiveness of instruction and progress towards the standard set out in the Accountability Plan Performance Framework. Schools receive points ranging from 1 to 4 in each of the instructional best practices noted above. Those points are then weighted based on the effect size each one has on overall student achievement and growth. The school’s rating for the visit is based on the sum of the weighted points. The rubric for Instruction, found in the school’s Accountability Plan Performance Framework, is as follows:

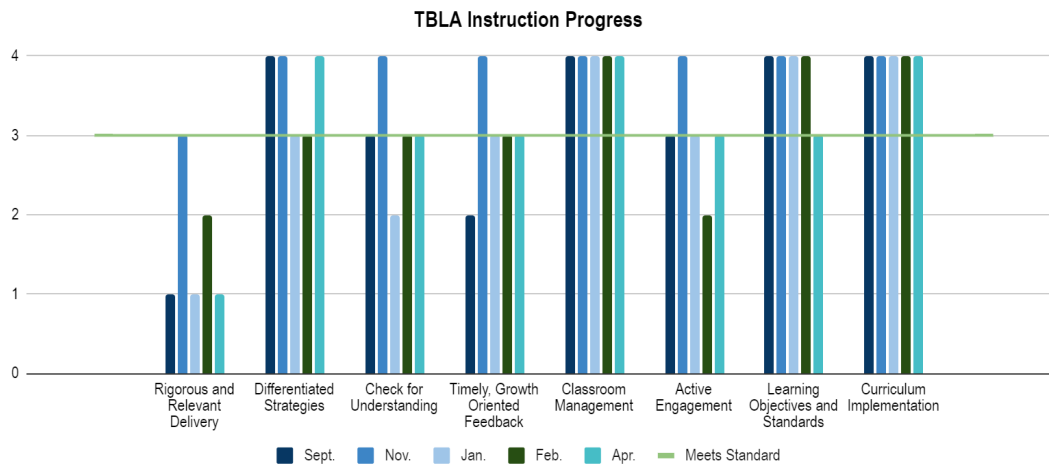

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The school receives a score of 4.	The school receives a score within the range of 3.0-3.9.	The school receives a score within the range of 2.0-2.9.	The school receives a score within the range of 1.0-1.9.

Due to the COVID-19 pandemic, schools across the state were tasked with providing various instructional delivery methods for students based on health and safety guidelines provided by their county’s local health department. Delivery methods, such as in-person, remote, or hybrid models, consistently changed for each school in Education One’s portfolio throughout the 2020-21 school year based on COVID-19 related data and guidance. However, despite these modality changes, Education One was able to consistently observe instruction through in-person and/or remote site visits.

The following table provides data collected throughout the 2020-21 school year and indicates the percentage of classrooms that showed a concern in each instructional best practice. Boxes highlighted in yellow indicate a best practice that was a concern in at least half of the classrooms observed. These areas of focus and improvement were documented and shared with the school leadership team and the school’s Board of Directors during regularly scheduled board meetings.

2020-21 Site Visit Percentage of Classrooms Showing a Concern								
	Rigorous and Relevant Delivery	Differentiated Strategies	Checks for Understanding	Timely, Growth Feedback	Classroom Management	Active Engagement	Learning Objectives and Standards	Curriculum Implementation
Sept.	54.5%	9.1%	31.8%	36.4%	0.0%	13.6%	9.1%	4.5%
Nov.	28.6%	4.8%	4.8%	4.8%	0.0%	9.5%	0.0%	0.0%
Jan.	50.0%	30.0%	40.0%	30.0%	5.0%	30.0%	5.0%	5.0%
Feb.	35.3%	11.8%	11.8%	29.4%	0.0%	35.3%	11.8%	0.0%
Apr.	68.8%	6.3%	31.3%	18.3%	0.0%	25.0%	12.5%	0.0%

The following graph illustrates the progress of each best practice throughout the year based on the percentage of classrooms that showed a concern. Consistent with the Instruction rubric, an area receiving a minimum of a '3' would be meeting standard.

Throughout the 2020-21 school year, Education One recognized the importance of monitoring each school's instructional effectiveness and providing stakeholders with feedback and next steps for improvement despite schools implementing instruction different from their normal educational model. Thea Bowman Leadership Academy (TBLA) provided instruction to its scholars virtually or through a hybrid model later in the school year. Scholars and staff were never 100% in the building at any point in the 2020-21 school year based on health department guidance and local COVID-19 positivity rates.

Based on the COVID-19 pandemic and the inconsistency of overall instructional delivery, Education One suspended the rating for Instruction for the 2020-21 school year. Therefore, TBLA receives a rating of **Not Applicable**.

Attendance: Starting at the age of seven, students in Indiana are required to attend school regularly. The Indiana Department of Education (IDOE) defines habitual truancy as ten or more days absent from school, meaning students are required to attend school for 95% of the 180 days in a school year. The rubric for Attendance is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school's attendance rate is 95.0% or greater.	The school's attendance rate is between 90.0 and 94.9%.	The school's attendance rate is less than 90.0%.

The table identifies the average attendance rate per grade level and the school's overall average attendance. TBLA had an average attendance rate of 79.5%, however, the school will receive a rating of **Not Applicable** due to the pandemic.

Attendance Breakdown					
Kindergarten	84.3%	N/A	Seventh Grade	82.0%	N/A
First Grade	72.7%	N/A	Eighth Grade	83.0%	N/A
Second Grade	83.7%	N/A	Ninth Grade	70.1%	N/A
Third Grade	87.6%	N/A	Tenth Grade	69.8%	N/A
Fourth Grade	77.6%	N/A	Eleventh Grade	79.6%	N/A
Fifth Grade	80.7%	N/A	Twelfth Grade	77.7%	N/A
Sixth Grade	86.8%	N/A	Whole School	79.5%	N/A

✓ = Meets Standard, ✗ = Approaching Standard, ✗ = Does Not Meet Standard

Post-Secondary Support: Education One measures the quality of a high school’s post-secondary support by looking for the following characteristics:

- Students are prepared for rigorous post-secondary opportunities through challenging coursework (e.g., Advance Placement courses, internships, independent study);
- Students are motivated and prepared for post-secondary academic opportunities through high expectations;
- Sufficient material resources and personnel guidance are available to students for post-secondary options, including dual-enrollment options; and
- Graduation requirements meet or exceed graduation standard requirements for the state of Indiana.

The rubric for Post-Secondary Support is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school exhibits no concern in the indicator characteristics.	The school presents concerns in one of the indicator characteristics.	The school presents concerns in two or more of the indicator characteristics.

The TBLA leadership team, along with the support from its management company, Phalen Leadership Academies (PLA), has worked to streamline and increase the opportunities and expectations for grades 9-12 in order for scholars to be successful post-graduation. Prior to the start of the school year, PLA worked with TBLA staff to secure proper licences, provide support with any test preparation, and cover the costs of any exams needed to obtain a new license. In conjunction with this endeavor, the school partnered with Trine University and Purdue University to provide scholars the opportunity to earn college credits while in high school through dual enrollment. TBLA has also partnered with Edgenuity/Edmentum online learning to provide College Board approved AP courses to scholars.

While Education One commends both the TBLA and PLA leadership teams for creating the foundations required for post-secondary support described above, the high school, overall, lacks the high expectations in its instructional delivery to motivate and prepare scholars for post-secondary opportunities. Thus, TBLA is **Approaching Standard** according to their Accountability Plan Performance Framework.

Legacy Student Achievement on Benchmark Assessment: Education One measures the success of the school’s implementation of its educational model by analyzing whole school achievement percentages of students who have attended the school for a minimum of two years. These students are considered legacy students.

Education One requires all schools in its portfolio to measure student progress multiple times throughout the school year using an assessment tool selected by each individual school. TBLA utilized the Northwest Evaluation Association (NWEA) tool Measures of Academic Progress (MAP) during the 2020-21 school year. This computer adaptive assessment assesses students in reading and math and is aligned to grade level standards. The rubric for Legacy Student Achievement on Benchmark Assessment is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
80.0% or more of legacy students demonstrated grade level proficiency according to benchmark assessment standards.	70.0-79.9% of legacy students demonstrated grade level proficiency according to benchmark assessment standards.	60.0-69.9% of legacy students demonstrated grade level proficiency according to benchmark assessment standards.	Less than 60% of legacy students demonstrated grade level proficiency according to benchmark assessment standards.

During the 2020-21 school year, TBLA gave its benchmark assessment in the fall, winter, and spring. These results were consistently collected, analyzed, and discussed to identify areas of immediate improvement and/or celebration. The ‘Average,’ ‘High Average,’ and ‘High’ categories signify students who demonstrated grade level proficiency. However, these categories represent percentile rankings. An increase in the percentage of students in these categories indicates that students outgrew their academic peers enough to obtain higher achievement scores. A decrease in the percentage of these categories would then signify that students did not grow enough to

maintain similar achievement levels as their academic peers. It does not mean that students went backwards in their achievement.

At the beginning of the year, 52.1% of TBLA legacy students were performing on grade level in reading and 43.4% in math. Education One will note that these assessments took place almost 100% online while scholars were in their homes. Therefore the reliability of these results is questionable due to at-home testing environments not having the same level of expectations as one would see in a school environment. These percentages both decreased by the end of the year to 43.0% in reading and 35.8% in math. More scholars completed the end of the year assessment at the school, however there were still those who took the assessment at home. The following graphs illustrate the achievement of legacy scholars from the beginning of the year to the end of the year in reading and math, compared to non-legacy scholars and the whole school.

Education One's reasoning behind having schools continue to maintain normal benchmark assessment schedules was to further understand the impact of COVID-19 on student learning and identifying resources and supports needed to address inequities among student subgroups served. However, due to the pandemic and frequent interruptions or changes in instructional delivery methods, Education One will not hold its schools accountable for benchmark assessment results, including the achievement of legacy students. For that reason, TBLA receives a rating of **Not Applicable** for both reading and math.

Subgroup Student Achievement on Benchmark Assessment: Education One also measures the success of the school's implementation of its educational model by analyzing achievement percentages of the subgroups represented in the school as a whole. The school receives separate annual ratings in reading and math for subgroups with a minimum of 20 students in the following areas:

- Economically Disadvantaged;
- English Learner;
- Gender;
- Race; and
- Special Education

The rubric for Subgroup Student Achievement on Benchmark Assessment is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
80.0% or more of students in the identified subgroup demonstrated grade level achievement, according to benchmark assessment standards.	70.0-79.9% of students in the identified subgroup demonstrated grade level achievement, according to benchmark assessment standards.	60.0-69.9% of students in the identified subgroup demonstrated grade level achievement, according to benchmark assessment standards.	Less than 60% of students in the identified subgroup demonstrated grade level achievement, according to benchmark assessment standards.

The following table illustrates the achievement of each subgroup of legacy students in reading and math for the 2020-21 school year based on end of year assessment data and how those percentages rate against the indicator’s rubric. Data for subgroups with less than 20 students is suppressed for confidentiality purposes.

Subgroup Breakdown					
Subgroup	Population %	Reading		Math	
Whole School	100%	43.0%	N/A	35.8%	N/A
Female	49.9%	47.0%	N/A	36.5%	N/A
Male	50.1%	38.8%	N/A	35.1%	N/A
Black	94.0%	42.9%	N/A	35.6%	N/A
Hispanic	4.4%	44.4%	N/A	46.7%	N/A
Economically Disadvantaged	100%	43.0%	N/A	35.8%	N/A
Special Education	11.5%	23.2%	N/A	10.5%	N/A

✓ = Exceeds Standard, ✔ = Meets Standard, ✘ = Approaching Standard, ✖ = Does Not Meet Standard

Similar to Legacy Student Achievement on Benchmark Assessment, TBLA receives a rating of **Not Applicable** for both reading and math for Subgroup Student Achievement on Benchmark Assessment due to the COVID-19 pandemic. Data will be utilized to plan and provide resources and support for the 2021-22 school year.

Growth on Benchmark Assessment: Education One monitors the growth students make during the school year to measure the effectiveness of the school’s educational model implementation. Students included in growth data are those who had valid fall and spring benchmark results. Typical growth is defined by the assessment tool used by the school. The rubric for Growth on Benchmark Assessment is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
80.0% or more of students met or exceeded typical growth expectations.	70.0-79.9% of students met or exceeded typical growth expectations.	60.0-69.9% of students met or exceeded typical growth expectations.	Less than 60.0% of students met or exceeded typical growth expectations.

The graphs on the following page illustrate the growth students experienced from the fall to winter (BOY to MOY) and then the fall to spring (BOY to EOY) benchmark assessments. NWEA sets growth goals for each student based on achievement level and grade level. In reading, 34.3% of scholars met growth targets from fall to spring. 36.5% of scholars met their growth targets in math from fall to spring. The percentage of students meeting growth targets decreased when comparing fall to winter and fall to spring in both content areas.

As noted above, due to the COVID-19 pandemic all assessment related indicators for TBLA receives a rating of **Not Applicable** for both reading and math.

Subgroup Growth on Benchmark Assessment: Growth is also measured through the lens of subgroups served at the school. The school receives separate annual ratings in reading and math for subgroups with a minimum of 20 students in the following areas:

- Economically Disadvantaged;
- English Learner;
- Gender;
- Race; and
- Special Education

The rubric for Subgroup Student Achievement on Benchmark Assessment is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
80.0% or more of students in the identified subgroups met or exceeded typical growth expectations.	70.0-79.9% of students in the identified subgroups met or exceeded typical growth expectations.	60.0-69.9% of students in the identified subgroups met or exceeded typical growth expectations.	Less than 60.0% of students in the identified subgroups met or exceeded typical growth expectations.

The following table illustrates the growth made by each subgroup of students in reading and math for the 2020-21 school year based on end of year assessment data and how those percentages rate against the indicator’s rubric. Data for subgroups with less than 20 students is suppressed for confidentiality purposes.

Subgroup Breakdown					
Subgroup	Population %	Reading		Math	
Whole School	100%	35.0%	N/A	37.0%	N/A
Female	49.9%	35.5%	N/A	36.9%	N/A
Male	50.1%	34.4%	N/A	35.1%	N/A
Black	94.0%	35.2%	N/A	34.9%	N/A
Hispanic	4.4%	33.3%	N/A	40.0%	N/A
Economically Disadvantaged	100%	35.0%	N/A	37.0%	N/A
Special Education	11.5%	42.9%	N/A	24.6%	N/A

✓ = Exceeds Standard, ✔ = Meets Standard, ✘ = Approaching Standard, ✖ = Does Not Meet Standard

Similar to Growth on Benchmark Assessment, TBLA receives a rating of **Not Applicable** for both reading and math for Subgroup Growth on Benchmark Assessment due to the COVID-19 pandemic. Data will be utilized to plan and provide resources and support for the 2021-22 school year.

State Academic Performance

State Accountability Grade: The state of Indiana utilizes a student-centered accountability system to report school performance in the form of a letter grade. The overall framework includes three domains, which are performance, growth, and multiple measures. Each domain consists of indicators that make up the final score for each of the domains. These scores are then weighted accordingly and the sum of which determines the school’s assigned accountability grade. For more information, including the history of Indiana’s accountability systems, click [here](#). Education One’s rubric for the State Accountability Grade is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The school received an ‘A’ or ‘B’ for the most recent school year.	The school received a ‘C’ for the most recent school year.	The school received a ‘D’ for the most recent school year.	The school received an ‘F’ for the most recent school year OR received a ‘D’ for at least two or more consecutive years.

Indiana’s General Assembly passed legislation during the 2019 session to hold schools harmless for accountability grades for the 2018-19 and 2019-20 school years due to the newly implemented ILEARN assessment, the results of which drive many of the indicators found in the accountability system’s performance and growth domains. Schools, therefore, cannot get a lower grade in 2018-19 or 2019-20 than they had in the 2017-18 school year. Similar legislation was also passed for the 2020-21 and 2021-22 school years due to the COVID-19 pandemic. State Accountability Grades are awarded to schools in the fall of the next school year.

This year’s accountability grade would typically represent the 2019-20 school year. However, the spring administration of the 2020 ILEARN was cancelled due to the COVID-19 pandemic and school closures of the 2019-20 school year. With no opportunity to increase or maintain their letter grade, TBLA receives a rating of **Not Applicable**.

State Assessment Participation Rate: The participation rate describes the percentage of students who completed the state mandated summative assessment. It is used for state and federal reporting and accountability determinations. The rubric for State Assessment Participation Rate is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
95.0-100% of students enrolled in testing grades participated in the most current state summative assessment.	85.0-94.9% of students enrolled in testing grades participated in the most current state summative assessment.	Less than 85.0% of students enrolled in testing grades participated in the most current state summative assessment.

The state summative assessment, ILEARN, for the 2019-20 school year was cancelled due to the COVID-19 pandemic. At the time of this report, assessment participation rates were not made available by the state for the 2020-21 ILEARN administration. Therefore, the school receives a rating of **Not Applicable**.

Legacy Student Achievement on Summative Assessment: When calculating legacy data utilizing state summative assessment results, Education One looks at students who have been enrolled for two or more years and those the achievement results of this group compare to the state’s overall results. The rubric for Legacy Student Achievement on Summative Assessment is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of legacy students that met or exceeded grade level expectations is greater than the state’s percentage.	The percentage of legacy students that met or exceeded grade level expectations is within 0-10.0% of the state’s percentage.	The percentage of legacy students that met or exceeded grade level expectations is within 10.1-20.0% of the state’s percentage.	The percentage of legacy students that met or exceeded grade level expectations is 20.0% or more less than the state’s percentage.

The corresponding charts illustrate trend data for legacy students' achievement compared to the state of Indiana during the time that Education One has authorized the school. The previous state summative assessment, the Indiana Statewide Testing for Educational Progress-Plus (ISTEP+), was replaced by Indiana Learning Evaluation Assessment Readiness Network (ILEARN) in 2018-19. Indiana students, in grades three through eight, experienced an overall decrease in grade level achievement of 16.3% in English/Language Arts and 10.5% in math after the first administration of the ILEARN assessment due to the combination of the rigors associated with the assessment and newly established performance cuts.

The 2019-20 ILEARN assessment administration was canceled due to the school closures caused by the COVID-19 pandemic. This year, however, schools across the state of Indiana were tasked to complete year end summative assessments to be able to provide results that would indicate the levels of learning lost due to school closures and the COVID-19 pandemic, not to hold schools accountable for results. For that reason, Education One is providing a rating of **Not Applicable** for all state summative results from the 2019-20 and 2020-21 school years.

Subgroup Student Achievement on Summative Assessment: Similar to legacy student achievement, Education One compares the percentage of students in each subgroup served at the school who met or exceeded grade level standards to the state's percentage of each similar subgroup. This indicator measures how successful the implementation school's educational model is in serving special populations found in the community that may be underrepresented across the state as a whole. The rubric is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of students in the identified subgroups demonstrating grade level achievement is greater than the state's percentage.	The percentage of students in the identified subgroups demonstrating grade level achievement is within 0-10.0% of the state's percentage.	The percentage of students in the identified subgroups demonstrating grade level achievement is within 10.1-20.0% of the state's percentage.	The percentage of students in the identified subgroups demonstrating grade level achievement is more than 20.0% from the state's percentage.

TBLA receives a rating of **Not Applicable** due to the cancellation of the 2020 ILEARN assessment.

Student Growth on Summative Assessment: Under the Indiana Growth Model, the IDOE compares each student's growth on the state summative assessment from one year to the next and determines whether students made low, average, or high growth when compared to their academic peers. For more information, click [here](#). To measure the student growth overall, Education One uses the school's median growth percentile (MGP), which summarizes student growth percentiles by ordering individual student growth percentiles from lowest to highest, and identifying the middle score, or the median. MGPs range from 1 (lowest) to 99 (highest). An MGP of 50 indicates average growth. The rubric is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The school's Median Growth Percentile is 75 or more (top quartile).	The school's Median Growth Percentile is between 50 and 74.9.	The school's Median Growth Percentile is between 25 and 49.9.	The school's Median Growth Percentile is less than 25 (bottom quartile).

TBLA receives a rating of **Not Applicable** for both reading and math for Student Growth on Summative Assessment due to the COVID-19 pandemic.

Subgroup Student Growth on Summative Assessment: Education One measures the success of the school's educational model by analyzing the percentage of students in each of the school's represented subgroups who are on target to become proficient or maintain proficiency of English/Language Arts and Mathematics standards based on growth exhibited. Student growth percentiles are used to determine whether students are making adequate growth annually to make these targets. The rubric for this sub-indicator is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of students in the identified subgroup who are on target to become proficient or maintain proficiency is greater than the state's percentage.	The percentage of students in the identified subgroup who are on target to become proficient or maintain proficiency is within 0-10.0% of the state's percentage.	The percentage of students in the identified subgroup who are on target to become proficient or maintain proficiency is within 10.1-20.0% of the state's percentage.	The percentage of students in the identified subgroup who are on target to become proficient or maintain proficiency is more than 20.0% from the state's percentage.

A rating of **Not Applicable** for both reading and math for Subgroup Student Growth on Summative Assessment is given to TBLA due to the COVID-19 pandemic.

Comparison to Local Schools: Education One compares its portfolio schools to surrounding community schools that serve students with similar demographics and are within 10 miles of the school’s location to ensure the charter school is providing a quality choice to the community. Results from the state summative assessment are utilized to identify how Education One schools are performing against their comparative local schools.

To meet standard, a school’s overall performance in both achievement and growth outpaces the comparison schools at least 75% of the time. The rubric for Comparison to Local Schools is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
	The school’s overall performance in proficiency and growth outpaces comparison schools 75.0-100% of the time.	The school’s overall performance in proficiency and growth outpaces comparison schools 50.0-74.9% of the time.	The school’s overall performance in proficiency and growth outpaces comparison schools less than 50.0% of the time.

Due to the COVID-19 pandemic and school closures during the spring of 2020, the state of Indiana cancelled all state assessments. Therefore, with no new data that is available to compare schools at the time of this report, TBLA receives a rating of **Not Applicable**.

Reading Proficiency- Grade 3: The state of Indiana utilizes the Indiana Reading Evaluation and Determination (IREAD-3) assessment to measure foundational reading standards through grade three. This summative assessment requires the evaluation of reading skills for students who are in grade three to ensure that all students can read proficiently before moving to grade four. IREAD-3 is administered two times per year, round one taking place in the spring and round two taking place in the summer for those students who did not pass the first round assessment. Education One compares its schools’ passing percentages after both rounds of testing to the state’s passing percentage. The rubric for Reading Proficiency- Grade 3 is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of students receiving a passing score after both spring and summer assessments is greater than the state’s passing percentage.	The percentage of students receiving a passing score after both spring and summer assessments is within 0-10.0% of the state’s passing percentage.	The percentage of students receiving a passing score after both spring and summer assessments is within 10.1-20.0% of the state’s passing percentage.	The percentage of students receiving a passing score after both spring and summer assessments is greater than 20.0% of the state’s passing percentage.

The 2020 administration of IREAD-3 was cancelled due to the COVID-19 pandemic. At the time of this report, statewide IREAD-3 results for the 2021 administration were not yet made available. Therefore the school receives a rating of **Not Applicable**.

Graduation Rate: Education One monitors the four-year cohort graduation rate of each of its high schools and how it compares to the state of Indiana as a whole. The graduation rate measures the percentage of students that successfully completed all requirements to move on from high school within four years. The rubric for Graduation Rate is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The school’s graduation rate is greater than the state’s graduation rate.	The school’s graduation rate is within 0-10.0% of the state’s graduation rate.	The school’s graduation rate is within 10.1-15.0% of the state’s graduation rate.	The school’s graduation rate is more than 15.0% away from the state’s graduation rate.

Official graduation rates are released well into the next academic year in the state of Indiana. Therefore, 2019-20 cohort data was utilized for this sub-indicator rating. The state of Indiana saw a four-year cohort graduation rate of 87.0% in 2019-20. TBLA’s graduation rate was 79.8%. With a difference of 7.2%, the school receives a rating of **Meets Standard** for Graduation Rate.

Also worth noting is data released by the state surrounding Diploma Strength, which measures whether students completed the requirements of Indiana’s Core 40 diploma designation or higher and did not receive a waiver from any graduation requirements. The following table compares TBLA’s graduation rate and diploma strength to the state and local school district. Areas highlighted in green indicate TBLA having a higher graduation rate or stronger diploma.

	Graduation Rate	Diploma Strength
Thea Bowman Leadership Academy	79.8%	79.8%
State of Indiana	87.0%	79.1%
Gary Community School Corporation	62.3%	62.3%

College and Career Readiness: Similar to Graduate Rate, graduates in the most recently finalized cohort enrolled in the school are included when reporting college and career readiness information. This sub-indicator measures whether students are prepared for postsecondary life by achieving college or career credentials while still in high school. This includes:

- Industry Certification;
- Completion of at least three hours of College-Level Courses;
- Passing score on an Advanced Placement exam; or
- Passing score on the International Baccalaureate exam.

Education One measures the success of a school’s ability to prepare its graduates for college and/or careers by comparing the percentage of students meeting at least one of the above qualifications to that of the state. The rubric is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of students prepared for college and/or careers is greater than the state’s average percentage.	The percentage of students prepared for college and/or careers is within 0-10.0% of the state’s average percentage.	The percentage of students prepared for college and/or careers is within 10.1-15.0% of the state’s average percentage.	The percentage of students prepared for college and/or careers is more than 15.0% away from the average state’s percentage.

The percentage of students in the school’s 2019-20 cohort meeting at least one college or career qualification was only 39.0%. The percentage of students across the state was 68.1%. Therefore, TBLA receives a rating of **Does Not Meet Standard**.

Federal Academic Performance

Federal Accountability Rating: In accordance with Every Student Succeeds Act (ESSA), Indiana developed a federal accountability system to drive student success where each school's performance is measured in relation to the respective statewide performance goals, and reflected by the following designations:

- Exceeds Expectations
- Meets Expectations
- Approaches Expectations
- Does Not Meet Expectations

The performance of all indicators is combined to determine the overall annual performance rating of the school. To learn more about Indiana's federal accountability system and ESSA click [here](#). The rubric for Federal Accountability Rating is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The school received a rating of Exceeds Expectations.	The school received a rating of Meets Expectations.	The school received a rating of Approaches Expectations.	The school received a rating of Does Not Meet Expectation for the most recent school year OR received a rating of Approaches Expectations for at least two or more consecutive years.

This year's accountability rating would typically represent the 2019-20 school year. However, the spring administration of the 2020 ILEARN was cancelled due to the COVID-19 pandemic and school closures of the 2019-20 school year. With no opportunity to increase or maintain their achievement or growth percentages, TBLA receives a rating of **Not Applicable**.

Model Attendee: The state's student attendance goal measures whether students are considered "model attendees." A "model attendee" is a persistent attendee, a student who is in attendance for at least 96% of his or her enrolled days during the school year, or an improving attendee, a student whose attendance improved by at least three percentage points from the prior school year. Education One measures the success of a school's model attendee rate by comparing it to the state's rate. The rubric is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The model attendee rate is greater than the state's percentage.	The model attendee rate is within 0-10.0% of the state's percentage.	The model attendee rate is within 10.1-20.0% of the state's percentage.	The model attendee rate is more than 20.0% away from the state's percentage.

Data utilized for this sub-indicator is from the previous school year. In 2019-20, TBLA had a model attendee rate of 65.3% while the state's rate was 71.5%. Therefore, the school receives an overall rating of **Meets Standard**.

Closing Achievement Gaps: Education One utilizes data from the school's most recent state summative assessment to measure growth towards becoming proficient or maintaining proficiency of grade-level standards in reading and math for the lowest performing 25% of students in the school. The rubric is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of students performing in the bottom 25% becoming proficient or maintaining proficiency is greater than the state's percentage.	The percentage of students performing in the bottom 25% becoming proficient or maintaining proficiency is within 0-10.0% of the state's percentage.	The percentage of students performing in the bottom 25% becoming proficient or maintaining proficiency is within 10.1-20.0% of the state's percentage.	The percentage of students performing in the bottom 25% becoming proficient or maintaining proficiency is more than 20.0% away from the state's percentage.

Due to no new available data and the COVID-19 pandemic, the school receives a rating of **Not Applicable**.

Language Proficiency for English Learners: English language proficiency measures whether students learning the English language are on target to develop or attain English language proficiency within six years. Student Growth Percentiles (SGPs) from the WIDA ACCESS 2.0 assessment are used to determine whether students are making adequate growth to meet these targets on an annual basis. The rubric from Language Proficiency for English Learners is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
The percentage of EL students that met or exceeded growth targets is greater than the state's percentage.	The percentage of EL students that met or exceeded growth targets is within 0-10.0% of the state's percentage.	The percentage of EL students that met or exceeded growth targets is within 10.1-20.0% of the state's percentage.	The percentage of EL students that met or exceeded growth targets is more than 20.0% away from the average state's percentage.

Data utilized for this sub-indicator is from the previous school year. In 2019-20, TBLA did not have a cohort of students large enough for data to be released. Therefore, the school receives a rating of **Not Applicable**.

Part II: Financial Performance

The Financial Performance review gauges both short-term financial health as well as long term financial sustainability, while accounting for key financial reporting requirements. Part II of this review consists of various indicators designed to measure the overall financial viability of a school. All indicators are noted in the school's Accountability Plan Performance Framework.

Overall Rating for Financial Performance	Year 1	Year 2	Year 3
	2019-20	2020-21	2021-22
	Approaching Standard	Approaching Standard	

Is the school in good financial standing?	
Exceeds Standard	The school consistently and effectively complies with and presents no concerns in the indicators below.
Meets Standard	The school complies with and presents no concerns in the indicators below.
Approaching Standard	The school presents concerns in a minimal number of indicators and may or may not have a credible plan to address the issues.
Does Not Meet Standard	The school presents concerns in a majority of the indicators with no evidence of a credible plan to address the issues; or the school requires an Improvement Plan.

Accountability Plan Performance Framework Indicators	Year 1	Year 2	Year 3
Financial Management	MS	MS	
Enrollment Variance	AS	ES	
Current Ratio	MS	MS	
Days Cash	DNMS	MS	
Debt/Default Delinquency	MS	MS	
Debt to Asset Ratio	DNMS	DNMS	
Debt Service Coverage	N/A	N/A	

Financial Management: Education One measures the capacity of the school's financial management by the following characteristics:

- Submission of an annual audit that is timely, complete, and has identified no significant deficiency or weaknesses with the school's financial controls; and
- Submission of quarterly financial statements that are timely, complete, and able to be utilized to assess financial indicators.

These characteristics are observed on a quarterly basis as well as annually when new financial information is provided by the school and the State Board of Accounts (SBOA). Updated information is shared out at regularly scheduled school board meetings each quarter. The rubric for Financial Management is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school meets standard for both the financial audit and quarterly financial reporting requirements.	The school meets standard for either its financial audit or quarterly financial reporting requirements.	The school does not meet standard for either its financial audit or quarterly financial reporting requirements

TBLA utilized Donovan CPAs for their audit for the period of July 1, 2019 to June 30, 2020. The report was filed with The State Board of Accounts in March of 2021 and there were no significant deficiencies or weaknesses noted with the school's financial controls. Quarterly financial statements were submitted to Education One complete and on time for the entirety of the 2020-21 school year. For these reasons, the school receives a rating of **Meets Standard** for the 2020-21 school year.

Enrollment Variance: Indiana calculates its state tuition support for schools based on the number of students enrolled in September and February of the same school year. Enrollment variance measures the schools ability to create a budget centered on an appropriate enrollment target. The rubric for this indicator is as follows:

Exceeds Standard	Meets Standard	Approaching Standard	Does Not Meet Standard
Actual enrollment is greater than the budgeted enrollment.	Actual enrollment is between 98.0 and 100% of the budgeted enrollment.	Actual enrollment is between 93.0 and 97.9% of budgeted enrollment.	Actual enrollment is less than 93.0% of budgeted enrollment.

According to the Indiana Department of Education, TBLA had an enrollment count of 866 scholars as of October 1, 2020. The enrollment variance was 106% based on a budgeted enrollment of 812 scholars Therefore, TBLA receives a rating of **Exceeds Standard**.

Current Ratio: With regard to its current ratio, the school's current assets (cash or other assets that can be accessed in the next 12 months) exceed its current liabilities (debt obligations due in the next 12 months) with a ratio of 4.3 and therefore, the school receives a rating of **Meets Standard** on their Accountability Plan Performance Framework for Current Ratio. The rubric is as follows:

Meets Standard	Does Not Meet Standard
The current ratio is 1.10 or greater	The current ratio is less than 1.10

Days Cash: Additionally, Education One also calculates days cash on hand as an important measure of a charter school's fiscal health. This indicator shows how many more days after June 30, 2021 the school would be able to operate. The rubric for Days Cash is:

Meets Standard	Approaching Standard	Does Not Meet Standard
Days cash on hand is at least 90.0.	Days cash on hand is between 45.0 and 89.9.	Days cash on hand is less than 45.0.

Currently, TBLA has 105.3 days cash. The school falls far above the desired metric for days cash and, for this reason, receives a rating of Meets Standard.

Debt/Default Delinquency: This metric is determined by both the auditor's comments in the audited financial statements and contact with the school's creditors. The rubric for Debt/Default Delinquency is as follows:

Meets Standard	Does Not Meet Standard
The school is not delinquent or in default on any outstanding loans.	The school is delinquent and/or in default on any outstanding loans.

In the case of TBIA, neither its auditors nor its creditors provided any indication that the school had defaulted on its debt obligations. Based on that summary, the school receives a rating of Meets Standard according to its Accountability Plan Performance Framework.

Debt to Asset Ratio: Education One monitors the school's debt to asset ratio on a quarterly basis, reporting out at the school's regularly scheduled board meetings. This ratio indicates the percentage of assets that are being financed with debt. The school **Does Not Meet Standard** according to the debt to asset ratio indicator, with a ratio of 1.01. However, the school showed progress towards the meets standard metric after each quarter of the 2020-21 school year. The rubric for Debt to Asset Ratio is as follows:

Meets Standard	Does Not Meet Standard
The debt to asset ratio is less than 0.90.	The debt to asset ratio is 0.90 or greater.

Debt Service Coverage: Education One tracks the school's debt service coverage on a quarterly basis, similar to the other financial indicators. This indicator was not available for the school during the 2020-21 school year. The school receives a rating of **Not Applicable**.

Part III: Organizational Performance

The Organizational Performance review gauges the academic and operational leadership of the school. Part III of this review consists of various indicators designed to measure how well the school's administration and the school's Board of Directors comply with the terms of their charter agreement, applicable laws, and authorizer expectations. All indicators are noted in the school's Accountability Plan Performance Framework.

Overall Rating for Organizational Performance	Year 1	Year 2	Year 3
	2019-20	2020-21	2021-22
	Approaching Standard	Approaching Standard	

Is the school's organizational structure successful?	
Exceeds Standard	The school consistently and effectively complies with and presents no concerns in the indicators below.
Meets Standard	The school complies with and presents no concerns in the indicators below.
Approaching Standard	The school presents concerns in a minimal number of indicators and may or may not have a credible plan to address the issues.
Does Not Meet Standard	The school presents concerns in a majority of the indicators with no evidence of a credible plan to address the issues; or the school requires an Improvement Plan.

Accountability Plan Performance Framework Indicators	Year 1	Year 2	Year 3
Board Governance	MS	AS	
Leadership	MS	MS	
English Learner Compliance	N/A	N/A	
Special Education Compliance	AS	MS	
Charter Accountability Reporting Requirements	MS	MS	

Board Governance: Education One measures the quality of the school’s Board of Directors by looking at various characteristics. In order to meet standard for this indicator, a school’s governing board complies with and presents no concerns in those characteristics. Characteristics of quality board governance are observed during attendance of regularly scheduled board meetings, as well as from documentation provided by the chair and board committees. The rubric for Board Governance is:

Meets Standard	Approaching Standard	Does Not Meet Standard
The governing board complies with and presents no concerns in the indicator characteristics.	The governing board presents concerns in a minimal number of the indicator characteristics with a credible plan to address the issues.	The governing board presents concerns in a majority of the indicator characteristics and/or does not have a plan to address issues.

The Board of Directors for TBLA consists of seven members who represent skill sets in finance, community engagement, business, legal, and education. The board held all of its meetings virtually during the 2020-21 year in compliance with Indiana’s Open Door Law and adhered to the policies and procedures set forth in their by-laws and charter agreement. It is evident that each member has a clear understanding of the mission and vision of the school.

The Board Chair of TBLA maintained consistent and transparent communication with Education One, furthering the positive and collaborative relationship that has been established over the school’s charter term. Any concerns brought to the Chair by Education One were addressed and handled in a timely manner with the board as a whole. All materials necessary for engagement during the meetings were distributed in a timely manner by the school’s management company, PLA. Questioning and commenting, based on the review of these materials, in the meetings showed improvement throughout the school year based on conversations between Education One and the Board Chair. This led to stronger collaboration between the board and Ms. Simmons to support the success of the school.

Education One established new characteristics of a quality board later in the 2020-21 school year. These characteristics will be measured starting the 2021-22 school year and are:

- Completion of orientation/onboarding for new members, that includes participation in Education One Board Training; and
- Engage in fiduciary responsibility through personal contributions or fundraising.

Education One would like to see more development in the areas of formally evaluating its management partner, PLA, and conducting self-evaluations annually. In terms of reporting requirements, the board needs improvement in the areas of timely and complete submission of items requested by Education One. Currently, the governing board presents concerns in a minimal number of areas and receives a rating of **Approaching Standard** according to the school’s Accountability Plan Performance Framework.

Leadership: Education One measures the quality of the school’s leadership team by looking at various characteristics, including experience, stability in key administrative positions, communication with internal and external stakeholders, clarity of roles and responsibilities, engagements in the continuous process of improvement and establishing systems to address area of deficiency, and consistency in collaborating with the school’s Board of Directors.

These characteristics are observed during regularly scheduled site visits and board meetings, communication with the school’s leadership team, and school leader reviews conducted by the school’s management partner, Phalen Leadership Academies. The rubric from the school’s Accountability Plan Performance Framework for Leadership is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school leadership team complies with and presents no concerns in the indicator characteristics.	The school leadership team presents concerns in a minimal number of the indicator characteristics with a credible plan to address the issues.	The school leader presents concerns in a majority of the indicator characteristics and/or does not have a credible plan to address the issues.

Principal Simmons served as TBLA's school leader during the 2020-21 school year. This academic year was her first full year as school leader over all grade levels of the school, K-12. Previously, Ms. Simmons was the leader over the K-6 portion of TBLA and has had a leadership role since Education One has been TBLA's authorizer. She consistently demonstrates more than sufficient academic and leadership experience throughout the many challenges and obstacles that she has faced in this role. These have included the merging of the K-6 and 7-12 buildings into one campus, setting high expectations of staff, scholars, and families throughout the transition, creating policies and procedures necessary for a successful K-12 program, and successfully collaborating with all stakeholders involved at TBLA.

Education One commends Ms. Simmons for those accomplishments while simultaneously navigating through a worldwide pandemic that caused TBLA to completely shift gears from traditional instructional delivery to 100% virtual. The transition was as smooth as it could be with all the events that had to occur to make it happen, including the distribution of one-to-one technology and hotspots and professional development for teachers on a brand new virtual platform.

Leadership in key administrative positions remained consistent through the 2020-21 school year for the first time since Education One partnered with TBLA, including assistant principals and dean of students. Ms. Simmons has worked to ensure that roles and responsibilities are clearly defined among staff. However, more work is needed to be done at the high school level in terms of expectations of responsibilities of teachers and staff.

Principal Simmons modeled consistent and effective communication with both internal and external stakeholders. This is a strength of Ms. Simmons, proving to be so important during this tumultuous year. Her level of communication with all stakeholders was something that was inconsistent and missing at the middle and high school building prior to her taking over the leadership role. She consistently provided information to and consulted with the school's Board of Directors and Education One. It was evident that Principal Simmons worked to engage in processes of continuous improvement and established various systems to address areas of deficiency.

Education One commends PLA, specifically Ms. Combs and Dr. Lockhart, for their regional support of TBLA. The team has worked hard to help establish more rigorous coursework for TBLA high school scholars and ensure that properly licensed teachers are in the classroom. The consistent professional development and platforms that PLA helped provide, set TBLA up for success in the midst of providing instruction in a virtual capacity.

The current leadership team, under the guidance of Principal Simmons, complies with and presents no concerns in the characteristics of this sub-indicator. While there is still work to be done in establishing expectations regarding responsibilities, processes, and procedures at the high school level, Ms. Simmons is more than qualified for the task at hand. Therefore, TBLA receives a rating of **Meets Standard** for leadership.

English Learner Compliance: To ensure that laws and requirements are being upheld and English Learner (EL) students are being serviced appropriately, Education One conducts EL compliance checks on a quarterly basis to look for evidence of established Individualized Learning Plans (ILPs) goals and that those ILPs are current, appropriately communicated with classroom teachers and/or staff, and implemented. The rubric for English Learner Compliance is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school complies with all state and federal English Language Learner laws and provides appropriate documentation as evidence of meeting each component.	The school presents concerns with documentation and/or compliance in a minimal number of the sub-indicator components and has a credible plan to address the issues.	The school presents concerns with documentation and/or compliance in a minimal or majority of the sub-indicator components and/or provides no evidence of a credible plan to address the issues.

TBLA receives a rating of **Not Applicable** for this sub-indicator.

Special Education Compliance: To ensure that laws and requirements are being upheld and Special Education (SPED) students are being serviced appropriately, Education One conducts SPED compliance checks on a quarterly basis to look for evidence of established Individualized Education Program (IEPs) goals and that those IEPs are current, appropriately communicated with classroom teachers and/or staff, and implemented. Discipline data is also monitored to ensure that the percentage of disciplinary actions does not exceed the percentage of identified students and that actions are appropriate, equitable, and legal. The rubric for Special Education Compliance is as follows:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school complies with all state and federal special education laws and provides appropriate documentation as evidence of meeting each component.	The school presents concerns with documentation and/or compliance in a minimal number of the sub-indicator components and has a credible plan to address the issues.	The school presents concerns with documentation and/or compliance in a minimal or majority of the sub-indicator components and/or provides no evidence of a credible plan to address the issues.

Education One’s compliance officer conducted four Special Education compliance checks in September, November, February, and May for the 2020-21 school year. The school received the following ratings after each check:

September	November	February	May
Meets Standard	Meets Standard	Meets Standard	Meets Standard

The staff in the Special Education department has worked to maintain the processes and procedures necessary to ensure the school is compliant with applicable state and federal laws and has improved since the previous school year. Overall, the school **Meets Standard** for the 2020-21 school year.

Charter Accountability Reporting Requirements: Education One requires its schools to submit monthly reports consistent with state reporting and what is required of the authorizer to maintain according to legislation. The school is measured by timely submission of reports, compliance in terms of the school’s charter, policies, and federal and state laws, proactive and productive collaboration with the board to meet governance obligations, and participating during scheduled meetings with Education One. The rubric for Charter Accountability Reporting Requirements is:

Meets Standard	Approaching Standard	Does Not Meet Standard
The school complies with and presents no concerns in the sub-indicator characteristics.	The school presents concerns in a minimal number of characteristics and has a credible plan to address the issues.	The school presents concerns in a minimal or majority of characteristics and/or with no credible plan to address the issues.

TBLA complied with all sub-indicator characteristics, including the submission of all required documentation in a timely manner, complying with the terms of its charter and Emergency Accountability Plan, collaborating with PLA and Education One to meet various obligations, and participating in all scheduled meetings with the Education One team. Thus, TBLA receives a rating of **Meets Standard** according to their Accountability Plan Performance Framework.

Part IV: School Climate

The School Climate review gauges the culture of the school in meeting the needs of students, staff, and families in order to ensure overall effectiveness of the program. Part IV of this review consists of indicators designed to measure how well a school is providing the appropriate conditions for stakeholder satisfaction and success. All indicators are noted in the school's Accountability Plan Performance Framework.

Overall Rating for School Climate	Year 1	Year 2	Year 3
	2019-20	2020-21	2021-22
	Not Applicable	Meets Standard	

Does the school have a positive school climate?	
Meets Standard	The average percentage of students, staff, and families reporting overall satisfaction is at or above 80.0%.
Approaching Standard	The average percentage of students, staff, and families reporting overall satisfaction is between 70.0 and 79.9%.
Does Not Meet Standard	The average percentage of students, staff, and families reporting overall satisfaction is less than 70.0%.

In order to gauge school-wide satisfaction amongst stakeholders, Education One requires its schools to administer an annual survey to scholars, staff, and families that is created and analyzed by a third party provider. The survey measures overall satisfaction with the school, including the effectiveness of communication, safety of the school environment, and academic programming.

The graph illustrates the satisfaction rate of each stakeholder as well as the overall average. With an average satisfaction rate of 80.1%, the school receives a rating of **Meets Standard**.

While survey participation is not a metric that is measured in the Accountability Plan Performance Framework, understanding the survey's population size as well as the sample size is valuable in determining the validity of the overall survey. A school's population size is defined as the total number of possible respondents. The sample size indicates the number of completed responses the survey received. Population size and sample size are listed for each stakeholder in the table below.

TBLA's Survey Participation			
Stakeholder Group	Population Size Total # of Possible Respondents	Sample Size Total # of Actual Respondents	Survey Participation Rate
Students	834	557	66.8%
Staff	78	61	78.2%
Families	543	225	41.4%

Education One believes a participation rate of 80% validates the satisfaction rate of each stakeholder. While no stakeholder group met that goal, the staff stakeholder group's participation rate of 78.2% was the closest, therefore making the 91.8% satisfaction rate the most valid. It is important for the school to increase the participation of scholars and families in order to utilize the data to make quality changes or improvements, if necessary.

Part V: Next Steps

Does the school or organization require interventions moving forward?

All schools receive high-quality authorization practices to ensure that any areas of deficiency are not due to inadequate authorization. Education One couples oversight and support to ensure that each school remains autonomous in a structure of high expectations and continuous improvement. The authorizer utilizes a Tiered System of Support Rubric to tier each of its schools on a bi-annual basis at the end of the 2nd and 4th quarter of the school year. Schools can be moved in and out of tiered levels based on need at any point throughout the school year. The areas that Education One considers when tiering its school are:

- Number of years in which a school has been in existence;
- Leadership capacity and experience;
- Staffing of effective and/or highly effective teachers;
- Instructional ratings from regularly scheduled site visits;
- Progress towards achievement in reading and math on the school's benchmark assessment;
- Growth in reading and math on the school's benchmark assessment; and
- Subgroup growth in reading and math on the state summative assessment.

Education One's monitors progress towards goals found in the Accountability Plan Performance Framework through the following supports. The level and quantity of these supports will depend on the tier in which the school has been placed.

- **Site Visits:** Members of the Education One Team and the school's leadership team conduct classroom walkthroughs to identify overall commendations and recommendations to ensure that instructional best practices are being implemented throughout the school.
- **EL and SPED Compliance Checks:** Education One's Assistant Director of Community Connections and Compliance observes files and implementation of EL/SPED programs of the school to ensure that applicable laws, regulations, and best practices are followed with these special populations.
- **Academic Support Checks:** Education One's Assistant Director of Accountability collaborates with school leadership teams to help them reach more school specific goals, analyze data, and formulate improvement plans to ensure that schools are on track to meeting their accountability goals set forth in the Accountability Plan Performance Framework.
- **Reporting Requirements:** Schools provide the authorizer with reports based on statutory requirements and other important information regarding staffing, enrollment, board compliance, etc.
- **Board Meetings:** Members of the Education One Team attend regularly scheduled board meetings of each of its schools to monitor board governance indicators and provide status updates to all stakeholders on the school's academic, financial, and organizational performance.

School Supports by Tier

Tier I Supports 2.6-3.0 points	Tier IIa Supports 2.1-2.5 points	Tier IIb Supports 1.6-2.0 points	Tier III Supports 1.0-1.5 points

TBLA faced many challenges as it navigated through the COVID-19 pandemic and the type of virtual and hybrid instructional models required based on the effect the virus had on the school's local community. TBLA's Board of Directors, management company, PLA, and the school leadership team had made promising changes prior to the onset of the pandemic in order to position the school to start making necessary gains in the three performance areas of academics, financials, and organization for the 2020-21 school year. While the team was unable to truly implement these new changes because of the pandemic, those steps allowed for the school year to be as successful as it could possibly be. Education One commends the school for the following:

- Creating a virtual education model to support students and families, including the dissemination of technology, wifi capabilities, and resources;
- Working to ensure teachers have the appropriate licensure and supporting those staff in need with both personnel and monetary support in obtaining proper licenses;
- Exceeding enrollment targets and building up Days Cash beyond 90 days;
- Compliance in processes and procedures regarding the Special Education department;
- Phalen Leadership Academies ongoing support of the school in all performance areas; and
- Communication and collaboration between the school leadership team and all stakeholders, as measured by the end of year satisfaction survey.

As a Tier IIb school, TBLA will maintain monthly site visits and scheduled support checks with Education One to focus on school specific goals and areas of improvement. During the 2021-22 school year, improvement in the following areas is necessary:

- Create processes and procedures to establish high expectations for 7-12 staff, surrounding instruction and rigorous content offerings;
- Implement plans for collaboration between Special Education and General Education teachers;
- Utilize academic data and outcomes to identify root causes of observed deficiencies and create quantifiable action plans for improvement;
- Decrease debt to asset ratio; and
- Design assessment tools to be utilized for the management company and board self-evaluation on an annual basis.
