

The Edison Project

Purpose: To work with small business owners and residents in the community to reduce energy consumption by replacing regular light bulbs with Compact Florescent Light bulbs.

How the Program Works: Graceland University (Lamoni, Iowa) started this project in the Fall of 2006 and has invited other SIFE groups to participate. This project meets multiple SIFE criteria, including: entrepreneurship, market economics, program sustainability. Information is available at Graceland University SIFE's website:

<http://www.graceland.edu/sife/Pedison.html>

Advisors' note: We think this is a great opportunity for the University to save money as well.
