About this example

This example is based on required quarterly interest payments during the In-School Period and monthly interest payments during a one-year Transition Period after the In-School Period ends. The nine-year Repayment Period begins after the one-year Transition Period ends. This example assumes you are in school for four years, have a one-year Transition Period before beginning the Repayment Period and you have up to 10 years (including the Transition Period) from when you leave school to repay the loan. You may have an option to select up to two more years of interest-only payments without extending your payment term. If balances on all your SELF Loans are \$20,000 up to \$40,000, you may have up to 15 years (including the Transition Period) after you leave school to repay the loans. If balances on all your SELF Loans are \$40,000 or greater, you may have up to 20 years (including the Transition Period) after you leave school to repay the loans. These options may cause the interest you pay to be different than the example shown.

- Aggregate loan amounts of less than \$20,000 have a maximum Repayment Period of 10 years after the In-School Period ends.
- Aggregate loan amounts of \$20,000 up to \$40,000 have a maximum Repayment Period of 15 years after the In-School Period ends.

The minimum monthly payment will be larger if necessary to repay the loans within the Repayment Period.

Your actual Finance Charge may be greater or less than the amount listed on this disclosure depending upon when your loan enters repayment, the aggregate loan amounts, the required minimum monthly payment, interest rate changes in your variable rate loans, and other factors.
